**Re: Spill #9909741
Two Former Furon Sites
14 McCaffrey Street and 1 Liberty Street
Hoosick Falls, NY**

Dear Mr. Coladonato:

Based on all the data submitted to date pertaining to the two above-referenced properties, this office is requiring no further action at this time and we consider this matter closed. Please be advised that residual chlorinated solvent contamination remains at both of these properties and this letter does not limit Honeywell International Inc.'s liability should unforeseen problems arise in the future as a result of this contamination.

I can be reached at 518-357-2399, if you have any questions. Thank you for your cooperation in this matter.

Sincerely,

Keith D. Goertz, P.E.
Regional Spill Engineer.
Region IV
